

Rick January 15, 2017

He's forceful and authentic and personable. He vivifies the property you see before you. He helped us to see ourselves in the condo he sold us.

We're long term shoppers and buyers and we've accompanied plenty of witless and high-sounding over-selling salesmen.

We came to trust Rick. He got us happily through our purchase and helped us graciously in our early ownership. Simply, thanks Rick.

We take pleasure in being Galleon residents.
