Hey Rick

Just a quick note of thanks and appreciation for all of your assistance and guidance to Noreen and I during our recent real estate endeavors.

As you well know, these can be traumatic, if not terrifying engagements for the inexperienced consumer.

You have demonstrated a unique talent which combines your industry knowledge, experience, and contacts in providing us with a smooth and painless transition into our new home. You treated us like "family", and I will recommend you as such to my family and friends.
